GIVE TO THE FUTURE HOME OF
GIANT PARK & PLAYGROUND

This all-inclusive playground
will provide...

- An area where children with disabilities are not limited to one small section with their 'own' equipment.
- An area that can be used for both enjoyment and therapy.
- An area where parents and grandparents with mobility issues can play alongside their children/grandchildren.
- A playground that is inclusive for all, including grandparents, caregivers, siblings and parents.

Hi Friend -

The Blue Earth Area Chamber is excited to announce the creation of a custom, one-of-a-kind, all-inclusive vegetable-themed playground design that you won't find anywhere else.

Children and adults will love exploring our custom-built structures and the sensory and interactive elements. The soft cushioned flooring will keep kids safe while allowing easy access to the equipment.

This playground will provide the opportunity for all children to play together and allow them to experience the health, social and emotional benefits of outdoor play.

This vegetable-themed playground will be a 'go to' destination and benefit the entire community.

This playground would provide equitable access for children and grown up companions of all ages and addresses a need of the community. While we do have several parks, none are all-inclusive playgrounds --- allowing access to all.

The cost of creating an all-inclusive playground is significant, and we cannot do it without your help. Your donation will go towards purchasing specialized equipment and ensuring that the playground is designed to meet the needs of all children. Any contribution, which is tax deductible, will make a difference.

We hope you will join us in our goal of creating a play-ground that is truly inclusive and accessible to all!
